

AN APPEAL

This is to inform all concerned in the Life Science Departments that wife of Mr. Ashok Kumar Tiwari, working as Lab. Attendant in the Department of Plant Molecular Biology for last 20 years (in a Project of Dr. Arun K. Sharma), has been suffering from malignant brain tumor. She is getting the treatment from Safdarjung Hospital. Post-brain surgery, doctors have advised for a specialized highly focused radiation therapy.

The specialized radiation therapy is needed as the organ involved is brain where any unintended damage can be lethal. The estimated expenditure initially will be around Rs. 3 lacs. Mr. Ashok Kr Tiwari is not in a position to bear all these expenses since his monthly income is hardly sufficient for meeting his daily needs.

Keeping in view the above circumstances, it is, therefore, requested that we should help him generously to overcome this unforeseen situation. We all in the Department should help him financially, to the extent possible, by providing financial support. This will not only save life of one person but also give relief to the entire family.

Please donate generously. His phone number is 9910609950. His account details are following:

Account No. 33553003086; IFSC: SBIN0008778; State Bank of India, South Campus, New Delhi.
