

International / National Collaborations

Title of Collaborative Research	Collaborating Institute	Year	Funding Agency
A virtual centre of excellence for coordinated research on tuberculosis: Development of alternative strategies (Phase II)	ICGEB, New Delhi	2011-2017	DBT
Development of potent small molecule inhibitors against dopamine beta-hydroxylase to combat cardiovascular diseases	IIT, New Delhi	2015-2018	DBT
Deciphering the tumor suppressor function of miR-137 in glioblastoma tumors by proteomics	Sri Venkateswara College, DU	2016-2019	DST
Screening lead molecules identified by structure-based rational drug design methods against cytochrome b5 reductase 3 and dopamine beta hydroxylase in spontaneously hypertensive rat models for anti-hypertensive effects	Rajiv Gandhi Centre for Biotechnology, Trivandrum, Kerala	2017-2020	DBT
