

Department of Biochemistry
University of Delhi South Campus

7th October 2023

Department Seminar Series

Dr. Ranjan Nanda

Group Leader, Translational Health
International Centre for Genetic Engineering and Biotechnology

Dr. Nanda's major research focus is to develop translatable solutions by detailed understanding of tuberculosis disease pathophysiology at the cellular and molecular levels to develop novel adjunct therapeutics, nutritional intervention and easy-to-use disease screening (eNOSE) for better tuberculosis management.

:: Title ::

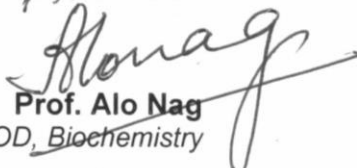

**Translating the Perturbed Pathophysiology
in Tuberculosis**

:: Date & Time ::

Tuesday, 10th October, 2023 at 3.00 P.M.

Venue: Seminar Hall, Bachhawat Block, Dept. of Biochemistry, UDSC

All are cordially invited.

Prof. Alo Nag
HOD, Biochemistry
